

# Sync Tool for Caratec AVN726EEW Truck

## User Guide

**You have to have a minimum 2GB SD card.**

How to start Synctool:

1. Download synctool from [HERE](#).
2. Copy the unzipped folder into the root folder of the SD card.
3. Insert the SD card into the device.
4. When the navigation is running, go to Settings - About - Update.
5. Synctool starts. At the first use, push Collect device information.
6. When it is done, follow the steps and exit the Synctool software.

Connect the SD card to the computer and start Naviextras Toolbox.

After you finished your purchases and installations with Naviextras Toolbox:

1. Disconnect the SD card from the computer, and reinsert it into the device.
2. Go to Settings - About - Update.
3. After the Synctool started, push Update device
4. When the update is finished, follow the steps and quit from Synctool.
